The Most **Trusted** Electronic Product & Service **Distributor** in India

Drive Technologies offers end to end solutions like equipments and consumables which allow Indian companies to understand and match international manufacturing practices and build world class products.

Integrity, value, and innovation are the forces that fuels Drive Technologies to be a sustainable company and to serve the customers better. We work with clients closely through the entire product development life cycle to help them realise greater value and outcomes.

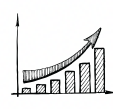

25+

Years of experience & loyalty in this Industry

1000+

Customers with long Standing relationships

15%

Growth rate Year on Year

20k

Products sold in the last decade

Mr. Prasad Gurjal & Mr. Pradeep Parulekar
(Managing Partners)

What drives us is working collaboratively and efficiently with our team to provide turnkey services to clients from various markets. Our offerings range from New Product introduction, engineering, assembly, supply chain management, consumables, coating and other value-added services. We ensure on Time Delivery and Prompt Pre and Post Sales Services.

We are a **leading supplier** of a wide range of **Capital Goods for PCB Assembly** which includes Wavesolder, SMD reflow ovens, Selective coating machines, Autostencil cleaning machine, Selective soldering, Inspection system, Selective Dip Coating, Rework Systems, Manual Solder paste / Glue dispenser/ Manual Stencil Printer, Fully Automatic pick & place systems, Corrosion test chambers, Ultrasonic PCB cleaning systems, Solder recovery systems, Spray fluxing system for Wave soldering machine, Conformal Coating spray booth & UV curing equipments, Environmental test chamber / Epoxy curing conveyerised oven and LCD modules & miniature printers.

Our **consumable division** supply range of a **speciality chemicals** like conformal coating masking materials, RTV, Adhesives, Gels, Strippers, Gasketing range on protective materials.

BRANDS THAT TRUST US

BHARAT FORGE

CYIENT

& MANY MORE...

“

**TECHNOLOGY
IS BEST USED
WHEN IT IS
BOUGHT FROM
THE RIGHT
PEOPLE.**”

We supply high quality products to the **hi-tech**
fields of various **industries.**

Military & Aerospace Electronics

Assembly of commercial aircraft components and other sophisticated electronics for military.

01

Automotive Electronics

02

From EV cars, light trucks, transmissions, power train components, engines, engine parts, interior, electronics, braking systems, and so on..

Consumer Electronics

Any electronic products that refer to merchandise or common products, purchased by the consumer for private consumption.

03

Medical Equipments & Electronics

04

Medical electronic equipment and supplies, including surgical and medical instruments, dental equipment, and surgical appliances.

White Goods Electronics

From household electronic appliances including refrigerators, cooking appliances, dishwashers, air conditioners, and much more...

05

Industrial Controls Electronics

06

Electronic equipments classified under manufacturing and processing of materials and services.

Renewable Energy Electronics

All manufactures who installs, and maintains equipment for electrical power distribution, industrial control, and automation

07

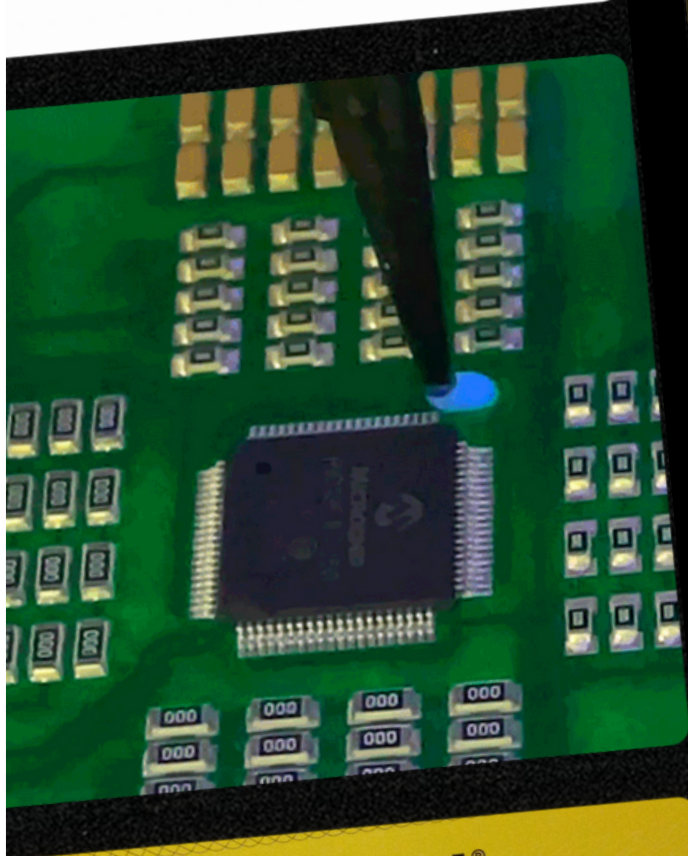

Lighting & Electrical Industry

08

Residential and nonresidential light bulbs, lighting fixtures, lamp shades, electronics, and other parts.

HumiSeal

HumiSeal materials are used for the protection of electronic and industrial devices against humidity, moisture, surface contaminants, mechanical and thermal stresses, as well as UV and chemical exposure.

Drive Technologies has built a strong and powerful reputation and presence throughout India and sub-continent which is backed by Mr. Prasad Gurjal and his strong engineering and technical support. HumiSeal is in a unique position of being completely independent when it comes to coating chemistry and with over 60 years in developing solutions, we are able to ensure that we meet the exact product requirements for our customers. I look forward to working closely with Drive Technologies.

Mr. Chris Palin
(EMEIA Manager HumiSeal)

PCB CONFORMAL COATING PRODUCT ALL UNDER ONE ROOF

Conformal Coating Gel

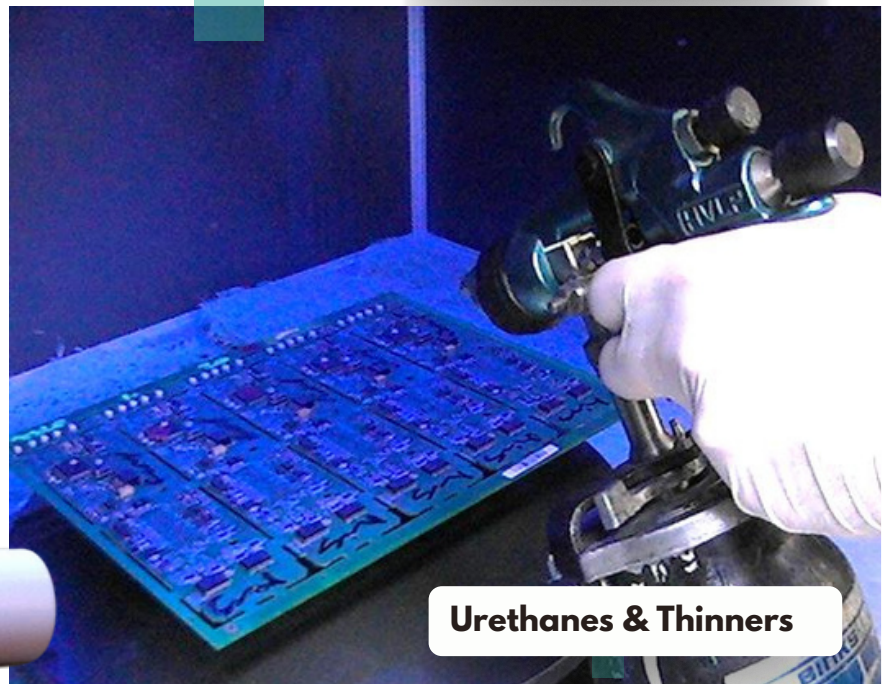

Surface Tension Test Pens

Aerosol Cans

Urethanes & Thinners

The development of technology today is very fast. There are many new applications that users can use to apply emerging devices and software. Every progress of the era must be followed by the development of technology.

says **Mr. Prasad Gurjal** (Managing Partner)

Surface Tension Test Pens

Masking Tapes and Dots

UV LED Torch

TS300 Peelable Solder

**OUR FULL LINE OF PRODUCTS IS ENGINEERED
TO MEET ALL YOUR **CLEANING, COATING,
AND MAINTENANCE NEEDS.****

WAVE SOLDERING MACHINE

REFLOW OVEN

DROSS RECOVERY

STENCIL PRINTER

SELECTIVE SOLDERING

STENCIL WASHING MACHINE

INSPECTION BOOTH

SELECTIVE COATING MACHINE

IR CURING MACHINE

INDUSTRY AT A GLANCE

Domestic electronic devices market in India
to reach **\$ 300 Bn** by **FY26**

With per capita disposable income and private **consumption** having doubled between FY12 and FY21, **India has emerged as one of the largest markets for electronic products in the world.**

The **electronic devices industry** valued at **\$118 bn** in 2019-20 is segmented as **Mobile Phones (24%), Consumer Electronics (22%), Strategic Electronics (12%), Computer Hardware (7%), LEDs (2%) and Industrial Electronics (34%)** comprising of **Auto, Medical and other industrial electronic products.**

- Digital Transactions per capita per annum have increased **~10x in 5 years.**
- India is a global R&D destination, with **1140+ R&D Centers of MNCs in India** employing 900,000+ professionals

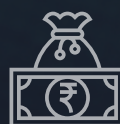

Production Linked Incentive (PLI) Scheme

The Union Cabinet chaired by the Prime Minister, Shri Narendra Modi has given its approval to introduce the Production-Linked Incentive (PLI) Schemes for Large Scale Electronics Manufacturing and IT Hardware for **Enhancing India's Manufacturing Capabilities and Enhancing Exports** – Atmanirbhar Bharat.

INR 40,951 Cr

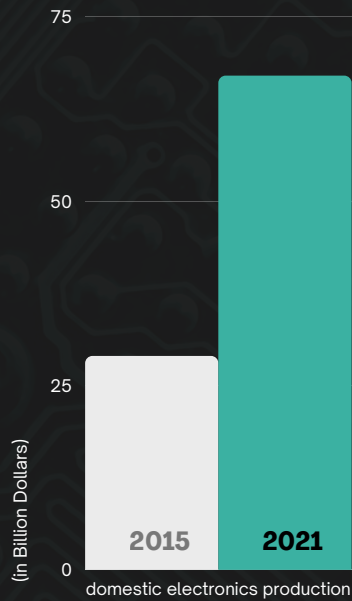

PLI for Large Scale Electronics Manufacturing

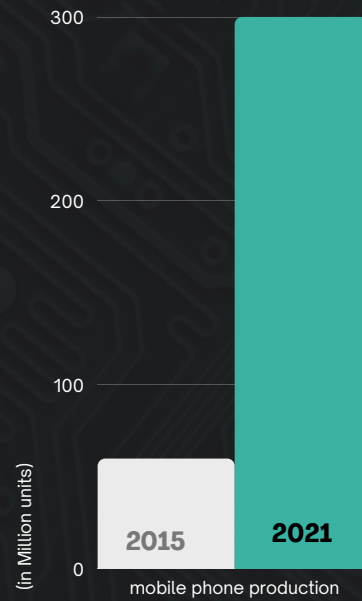

INR 7,325 Cr

PLI for IT Hardware

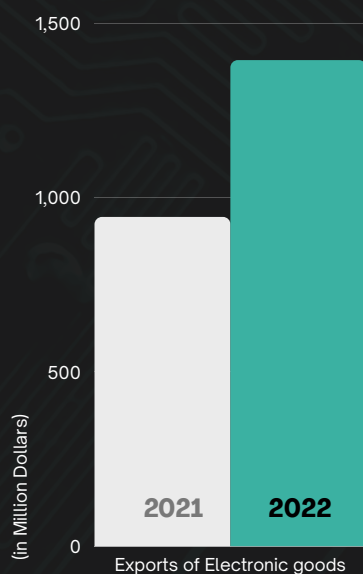

Over **2.3X growth** in domestic electronics production in 6 years; From \$ 29 Bn (FY15) to \$ 67 Bn (FY21)

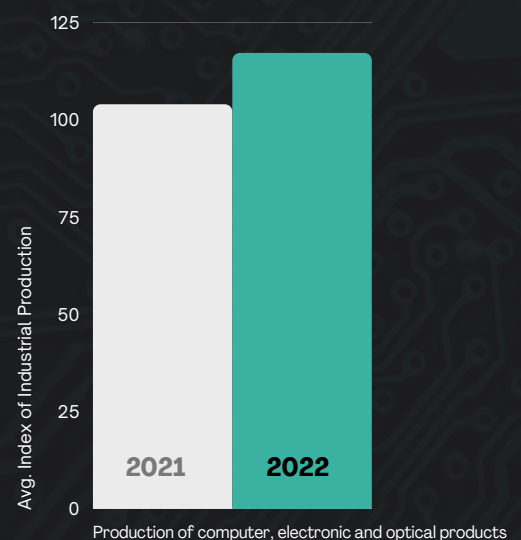

Over **5x growth** in production of mobile phones in 5 years; from 60 mn units (FY15) to ~300 mn units (FY21)

Exports of Electronic Goods values at \$ 1395.09 mn in May 2022 and records positive growth vis-à-vis May 2021 of **47.37%.**

The domestic Production of computer, electronic and optical products in the FY 2021-22 is 104.0 and has grown by **12.7percent.**

Services we offer

With years of experience behind us, we focus on providing a great customer experience even after you have bought from us. Here are all the professional & cost effective services we provide.

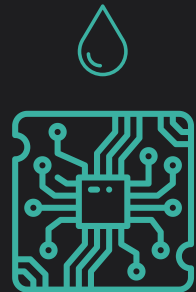

Import Assistance of *Haz* Chemicals

We can help you in the entire process of importing hazardous chemicals from finding the right supplier with the quantity you **want to arranging special vehicles, getting necessary licenses, right DG storage facility for your goods to reach you timely, safely and affordably.**

PCB Coating Services

We have perfected the coating process for years & we are happy to help you do this in the **most effective and professional** way.

After Sales Maintainance of Machines

Here are all the professional & cost effective services we provide : **Equipment Installation & Commissioning , Regular Maintenance & AMC, Cleaning & Overhauling Services, Equipment Relocation, Supply of Spares, etc.**
